Outstanding Middle Leaders 2017/18

Developing a vision and a language of leadership

This programme for current Middle Leaders with the aim to help them to identify their key priorities and then support them with precise action planning to address these. We would therefore encourage delegates to bring their department improvement / development plan. The four sessions will be led by Senior Leaders and encourage reflection and the development of a clear vision. In the final session delegates will be put into coaching trios in order to challenge each other and to unpick their next steps.

The sessions will focus on the following themes:

- Developing a vision
- Language for leadership
- Self evaluation
- Action planning
- Coaching
